### **One Eye Industries partners with P & H MinePro Services**

P & H MinePro Services to actively market OEI Product Line

July 13<sup>th</sup>, 2009 (Calgary, AB) One Eye Industries Inc. President Roger Simonson announced today that a new partnership has been struck with P & H MinePro Services. The partnership will see P & H take on OEI's full product line within P & H's distribution arm, MindPro Services. P & H MinePro Services represents and supports over thirty leading lines of equipment and services globally. "We are very proud and pleased to announce the new partnership of OEI Technologies with P & H," stated Simonson, "Not only will P & H be actively marketing our product line, but they will be outfitting all of their equipment that they lease with OEI filters". The full service commitment extends throughout all of Canada, with OEI also assisting P & H with product technical support and service. P & H MinePro Services of Canada currently has offices located in Sparwood & Prince George, BC, Calgary, Edmonton, Hinton & Fort McMurray, AB, Estevan, Sask, and Labrador City, NL.

#### **About P & H Mining Equipment:**

P&H Mining Equipment is a world-leading supplier of electric rope shovels, large rotary blasthole drills, and walking draglines, with global life cycle management support through its distribution arm, P&H MinePro Services. MinePro Services also represents and supports over thirty leading lines of equipment and services globally as a strong partner for the mining industry.
